

THE SEVEN MIGHTY ELOHIM

„Bridge to Freedom“
AMTF Mt. Shasta Publication
Werner Schroeder

The seven Elohim are mighty beings of love and light, who responded to the invitation of the sun of this system and offered to help to manifest the divine idea for this system, created in the minds and hearts of our beloved Helios and Vesta –God and Goddess of our physical sun, itself. Through ages of time, the Elohim have learned how to successfully use the creative powers of thought, feeling, spoken word and action, as God intended them to be used from the beginning. In cooperative endeavor, the Elohim drew forth our entire system in perfect manifestation, of which system the Earth is just one small planet.

So, to enrich the consciousness of the individual until he becomes the master of the energy within himself and learns to create causes which will manifest as constructive effects, the Elohim graciously have chosen to present, to mankind, the science –the way and means –by which they, themselves, achieved the manifestation of our solar system.

Call to these great Elohim in all the sincerity of your hearts!

I am the Elohim of PURITY! Because of your great light, love and interest in “The Light of God that never fails,” all through the years, I have been invited into Earth’s atmosphere, again, today. I am the guardian of the Immaculate Concept for this planet, Earth as well as for this entire universe. I am also the guardian of the Immaculate Concept of your own individualized divinity, which is fashioned from white fire substance and lives in the God-free realms. This is your pattern of perfection, originally created by the Godhead, *and that being, in all its perfection, you must one day become !*

Purification Necessary

Do you know how much purification is necessary within your mental bodies, before you can even accept our reality and our capacity to speak to you? It would be a source of very great personal gratification, if you could see how pure your vehicles had to be before we could even attempt the experiment of coming “through the veil” to speak our words to you!

You see, the vibratory action of the feeling worlds of the masses of the people is so slow (their worlds being filled with all sorts of disbelief and doubt), that even were they to hear our words, those words would not be accepted by them as truth, nor would they believe that those words were

actually coming from us, as real God beings. The vibratory action which has been established, in your vehicles, through all these years of application (individual and in groups), has made possible this spiritual association and partnership, today.

Dearly beloved ones, when you are “caught up in the spirit,” so to speak, when you are gathered together, here, as you are this morning, the vibration of your bodies is raised, each one, to its present ultimate point of comprehension. Then there is anchored, into your worlds, as much of the substance, energy and vital fire of our beings, as we know you can individually absorb. What happens next? After the meeting is over and your attention is again upon the things of this world, you go back into the accustomed vibratory action of your own aura, by giving it your attention, again, and thus connecting with the effluvia of the individuals with whom you live, with whom you work and the appearances of less than perfection by which you may be surrounded.

That which has seemed so simple, so easy of accomplishment while you were in class and your attention was upon us, (for that is our feeling of mastery, which we have given you through radiation) then recedes from your outer consciousness, because, by your change of attention, you allow the feelings of depression, doubt, fear and general effluvia of discord (which represents the general consciousness of mankind), to enter, again, into the subtle essence of your mental body, into the sensitive consciousness of your feeling world, into your etheric body and then, into your flesh.

It is my hope and sincere decree, that those whose worlds have been accelerated to the point where they can grasp and comprehend this Law, may learn that constant vigilance is so necessary to enable them to hold the vibrations of their inner and flesh bodies above connection with that of the mass mind. I now decree that this shall be so powerfully charged into your outer consciousness, that you never again forget it and thus sink back into the inertia which has made you “sleep for centuries,” accepting the minimum life has to offer, just to keep your bodies alive and your souls nourished to a certain point. Again, if you will consciously accept it, I now create, around you and your worlds, a great oval of pure, blazing white light from my own heart, which is the vibratory action of my consciousness. This will act, for you, as a deflector to those currents of discordant energy in which you move in the outer world, which slow down the vibrations of your inner and flesh bodies and again connect you with the mass distresses of mankind.

Law of Life –A Science of Vibration

Beloved friends, as the Great Ones have told you many times the action of this law is mechanical. It is absolutely and positively a science of vibration. The speed with which the electrons revolve around the central core of each atom in your mind (mental body) is determined by the thoughts you entertain. When those thoughts are of perfection and on the expansion of God’s good to his universe, the vibratory action of the electrons in your mental body is rapid and they deflect the mass thoughtforms of destruction, which float in the atmosphere of Earth.

These are deflected just as a rapidly, whirling propeller deflects dust, which would otherwise rest upon it. When you allow your mental body to connect with discord, whether it be recorded in newspapers, over the radio, television or in passing conversation, you immediately slow down the vibrations of your electrons. As they slow down, they are more “open,” let us say, to the mass

accumulations of depression, fear and other negative conditions, which then anchor into your mental body and draw it from the upward course of your aspirations.

The same is true of your emotional bodies. You come into these magnificent classes, sending your love and adoration to the Ascended Masters and other great beings, in songs and decrees. In this way, you raise your emotional bodies into a more rapid pulsation. The electrons move more rapidly around their central core, in the atom, and your emotional body is then magnetizing only that which is good. As soon as you allow your feelings (emotions) to tie into disapproval, fear, anger or discord of any kind (and the name thereof is "legion"), you slow down the vibrations of those feelings and lower them into the strata where those mass feelings of imperfection abide.

When you endeavor to satisfy the appetites of the four lower bodies BY TAKING INTO THE PHYSICAL FORM INTOXICATING LIQUORS, FLESH FOODS, CHEMICAL COMBINATIONS which do not agree with your particular well-being, or taking into the body more substance than it needs to keep it in a healthy condition, fermentation, general disintegration and, finally, "death" ensues. As the electrons move more slowly in their orbit around the central core of the atom, you thus open your flesh bodies to disease. It is just the mechanics of living. The holding of your attention, one-pointedly, upon the ever-presence of God, together with the assistance of this oval of blazing light which I have established about you today, will enable you to keep your four lower bodies vibrating above the discord in which you move. Then, truly, it can be said that there is nothing in you to which evil and discord can tie!

How is it possible for the great ARCHANGEL MICHAEL to live twenty hours out of every twenty-four, [Ed. Note: later this was increased to twenty two hours] within that substance of the Psychic and Astral Realm, and not be touched by it? It is because he keeps the vibratory action of his vehicles whirling at such a tremendous speed that it repels the discord and keeps his world disconnected from the hate creations around those he contacts and desires to set free.
