

GREAT DIVINE DIRECTOR'S DISCOURSE

PHILADELPHIA, PENNSYLVANIA MARCH 25, 1938

I AM ACTIVITY / ASCENDED MASTER LIGHT

CHILDREN of the Light! May I repeat that? Children of the Light! Stand forth in your mighty Glory! Release the Power of Light from your "Presence" through yourself! Your firm determination in the desire to serve the Light is your Victory. Your desire is God, your "Mighty I AM Presence" in action, giving you the opportunity to glorify Its Light which is within you. Give It dominion over your mind, body, world, and activity, to the glory of all that your Hearts desire and require! In the fullness of the Light which beats your Heart, every one of you is the Authority, the Power, the Glory that all mankind have sought throughout the centuries. Behold the Chart! and see that Great Stream of Life, Light, Energy, Intelligence, and Power, which is Yourself. It is anchored within your own physical Heart, glorifying all mankind in the fullness of Its Infinite, Almighty Power, as they give It their attention.

You are Children of the Light, because the Light which is Eternal is anchored within your Heart. The Power of Life is there! The Authority and Intelligence of the Infinite Power that rules the Universe is in your Heart! In your individual life you can have the fullness of It brought into action through your human form, by the Intelligence and Power of your "Mighty I AM Presence," as It comes within the Stream of Light which beats your Heart and gives Life to your physical structure.

Beloved Ones, tonight as I voice these Words to you, please still yourselves so I may render a Service for you. I trust that there will not be fifty people go out of this room whose human creation will not have been consumed!

Give Me your attention. If you will still yourselves, in this stillness is a great calm feeling of the Presence and Power of Light —interpenetrating your physical structure; filling your physical world with Its Infinite Power of Light. Then in great, full acceptance of the Power of the Light from your "Mighty I AM Presence," let Its Mighty Activity flood your being and world. As I amplify It through each human form, It will meet the uprising Violet Consuming Flame. Then, in Its Infinite Power and Activity, the Earth and the Heavens shall meet and be free in the Glory of Its combined Power and Activity! Such is the Glory of thee verincreasing, intensifying Power of Light. It is flooding the Earth with the Cosmic Light, amplified by the activity of the Students everywhere; by the Power of the Ascended Masters, the Cosmic Beings, and the Legion of Light.

Beloved Ones, why do you suppose the Messenger came to you tonight? Because the time was ripe. The time was ready, Beloved Ones, when certain activities had to take place for you. The Power of Light knows no opposite! Remember that in all of your activity. Remember that when It floods forth at your Call, everything unlike It disappears. Therefore, in the power of your momentum in the Decrees, it is no wonder the Messenger said human creation could not remain longer. Neither can entities remain in this mighty Flood of Light which goes forth. Oh, that you might have seen the Radiance which went forth. It was your Energy!

Let Me explain, so you may always remember it. As It reached a certain intensity in the power of your feeling, It raised to a certain altitude above you, which went into the Power of Infinite Light. What do you think that means to you individually? When this mighty Energy from you is released and reaches this point wherein It meets the great Activity — not only of the Cosmic Light, but this Light released from the Octave of the Ascended Masters—it is just as if It burst into a great Blazing Light and Power. In this Amplification, It is returned to you individually a thousand fold beyond what It left you, to bring about this same Perfection into the Earth for the protection of America.

Every night before you sleep, individually send forth a mighty, silent Call for the Infinite Powers of the Air to take Their Dominion over all aerial service for the Protection of America — the Americas—and let this Power of Protection act. Let this outer activity of mankind give you Its Assistance and Protection for your shores. The aerial service today, Beloved Ones, is the outer activity needed to protect nations from the other war fare of mankind in the physical activity. In your Call to the Power of Light for Its Infinite Power and Protection to be released through the Power of the Air, the fullness of Its Infinite Power and Activity comes to answer your Call.

If need be, It acts in your outer physical means of defense. This is how the Powers of Light are preparing the way for Its Glory to hold about you Infinite Power and Protection of Light in all you require. Not in hundreds of centuries have there been this number of humanity ready — willing to make the Calls you are doing, for the protection of your Country; for the protection of each other; for the protection of mankind. Do you not understand, Beloved Ones, without the Assistance of the Ascended Masters, the Legion of Light, the Cosmic Beings, and the Great Cosmic Light, mankind would be as helpless as infants before this onrushing power of human creation! Take notice, please!

All of you to some extent are responsible for the conditions in the outer world; but now in your mighty Calls, you have performed the act of redemption in your world to a very large degree.

So, I say to you henceforth — give no thought to what has been! Whether you feel it necessary or not, please once a day, at least, call on the Law of Forgiveness for any mistakes which you might have made or do make. Turn your attention away from human creation and listen to no one who breathes gossip or discord. We have asked this so repeatedly; and yet some of the precious Students continue to feel critical or discordant to some person, place, or condition. I tell you, Beloved Students, you are in great danger when you do this!

We love you tremendously; but We see your danger individually when you continue to feel discord toward any person, place, or condition at this point in the activity of the destructive forces of mankind. You have no idea to what a few moments of irritation might open yourselves to. I plead with you, in the name of humanity — do not do it! Have no concern, Precious People, about anything except the cleansing and purifying of your own mind, body, and world. Do not be concerned about someone else. I am pleading with you, Dear People of Philadelphia! Do not feel that I am criticizing you, or in anyway doing anything but to lift you from the condition which has limited you in numbers here. It is because of the subtle under current that has continued to manifest in your city among the Students.

It is your critical feeling to each other here which has held your numbers limited. I plead with you, Precious Ones, stop all of that now, tonight! Let your Love and Power flood forth from your "Mighty I AM Presence" to bless each other, and you will see how quickly all of your Groups will be flooded with more than you can handle.

I am pleading with you for your city! For America, and the great Protection which it must have! Do not, please, Dear Ones, oh, do not; do not, I pray of you, criticize each other or have any feeling toward each other but kindness and blessing. You will remember My Words, if you do not heed them. As I said to the Beloved Ones in the West, "No longer may I prompt you!" I should love to, if it were necessary; but the Law of your Life, of your being, says "No!" So tonight, in My great Love, My great Earnestness, I endeavor to give you this Assistance. I am here to perform this Service for you that your Call and earnest love have made possible.

It is not easy for mankind to realize in the limited consciousness of the human, what great Transcendent Powers are enfolding them every moment now. You, as Students of the Light, by your attention to the Light, are being flooded by the Light; and therefore, Dear Ones, please feel Its Infinite Power acting in, through, and about you. As you pour forth great love and kindness to all mankind, your being and world will be flooded with e very good thing.
